The law provides for the deduction of a "reasonable allowance" for sal-aries or other compensation for perute. A payment is not a salary if in fact it is paid for some consideration other than personal service. For example, should stockholders of a corporation draw salaries in amounts which hear close relationship to their stock holding and if such payments are found to be in excess of a "reasonable allowance" for services rendered the excess will be regarded as a dividend under the guise of salary.

The difference between this and the Distinguished Service Cross of the Army should be noted. The Army decoration is given only for heroism in action. The Navy Cross is much broaded in scope and, in addition to heroism in action, it includes any other distinguished service, not only in time of war but also in peace, in the theatre of hostilities or elsewhere. It is a junior decoration to both the Medal of Honor and the Distinguished

Service Medal. "These three naval decorations cove the whole possible gamut of services which should be rewarded. The Medal of Honor is the appropriate reward for extraordinary valor in action, the Distinguished Service Medal for any other specially distinguished services, and the Navy Cross for any meritorious service, of whatever character, of
